Sycamore internal layout

With a fresh, new, modern style the Sycamore Lodge is really worth a second look!

iPod docking stations, speakers discretely built into the ceilings and an Aqua TV in the family bathroom ensure that the Sycamore Lodge has not only style, but real substance.

Walk in to the spacious living area and you immediately begin to appreciate the unique feel and atmosphere of the Sycamore, which is flooded with natural light thanks to the large windows and double doors leading to the outside.

A high gloss kitchen adds to the drama of the lodge and is fitted with a host of energy efficient

integrated appliances and a large American fridge freezer (in 22' wide only).

The show stopping bedroom has a five star image thanks to its beautiful wet room, a real escape with its spacious, calm feel, walk-in drench shower, low level sensor lights and iPod docking station and speakers.

Nothing has been overlooked in the Sycamore and extreme attention to detail is evident with every step - this is a home to talk about and ultimately show off!
